RECOsystems RECO THERM

Thermo binder for thermal binding covers

The RECOsystems THERM is a perfect thermal binding machine for home or office use. If you need to produce presentations, records, offers or something similar - this is probably one of the easiest and fastest ways. Just place the paper in the thermal binding cover with the right size. Put the cover in the machine - and after 40 seconds and some cooling down time the binding is finished.

technical specifications:

- for DIN A4 thermal binding maps
- max. binding capacity: 250 sheets
- binding time: approx. 40 sec.
- acoustic and visual ready signal
- removable cooling down holding device
- 230V, 50 Hz
- weight: 1,15 / 0,86 kg
- dimensions: 370x145x220 mm / 330x125x180 mm *

*packing size/machine size (width x depth x height)
